

### *Not a New Sport*

Yes, people went skiing in 1910, but as you can see from this photograph they dressed a little differently than we do today. Imagine what it must have been like to ski down a hill in a dress instead of the ski pants everyone wears today.

Not only as our clothing and equipment changed but so has the way we get to the top of a hill. In the early 1900's individuals had no ski lifts to carry them up. They had to get to the top on their own two feet.
