

## General Store Worksheet

You're a Vermont farmer in the 1830s, you want to trade goods to build up your farm. Add the totals from your starting cards, then trade cards with your fellow farmers. Vermont farmers would **barter**, or trade one item for something of the same value. *Can you trade to get the best deal on items for your farm?*

### My Starting Items

Card 1	+	Card 2	+	Card 3
--------	---	--------	---	--------

=

### My Starting Total

<div style="border: 1px solid black; width: 100%; height: 100%;"></div>
---

**My Ledger:** Track the things you barter with your fellow farmers. You can trade cards more than once!

Item	Cost	Use/ Notes

### My Ending Items

Card 1	+	Card 2	+	Card 3
--------	---	--------	---	--------

=

### My Final Total

<div style="border: 1px solid black; width: 100%; height: 100%;"></div>
